AUSTIN GARCIA

FULL-STACK WEB DEVELOPER

work.austingarcia@gmail.com | Philippines
github.com/PensiveAustin linkedin.com/in/austin-garcia-web

PROFILE

Full-stack web developer who builds responsive, production-ready websites and practical web systems — from interface to deployment. Experienced with databases, authentication, AI-assisted features, and Cloudflare-backed hosting. Lead developer of a live learning platform used by real students, with client work delivered for a business in New Zealand. Currently pursuing a BS in Information Technology.

EXPERIENCE

2026 — **Lead Developer — Grammar Wizard**
Leading development of grammar-wizard.com, a learning platform for Porais National High School students. Built around a user database, login and authentication, AI-assisted features, and interactive quizzes.

2026 — **Intern — Nueva Technologies**
Internship experience working within a real tech team and gaining hands-on, professional exposure to day-to-day development work.

2026 — **Web Developer — Markan**
Designed and developed the landing page for Markan, a cleaning service business based in New Zealand.

2026 — **Freelance Web Development**
Built business websites with responsive layouts, database integration, custom features, hosting, domain configuration, and Cloudflare-backed deployment.

SELECTED PROJECTS

Project — **Grammar Wizard**
A student-focused learning platform with user accounts, database-backed content, AI-assisted functionality, and interactive grammar quizzes. Deployed on its own domain.

Project — **Markan Landing Page**
A clean, responsive landing page that gives a New Zealand cleaning service business a professional online presence.

TECHNICAL SKILLS

Languages	HTML, CSS, JavaScript, TypeScript, Python
Frameworks	React, Next.js, responsive web design
Backend & Database	Supabase, MySQL, authentication, CRUD / database systems
Deployment	GitHub, Cloudflare, hosting, domain setup
Tools	VS Code, Microsoft Office, Google Workspace, Zoom, CapCut

EDUCATION

2026–Now — **Central Luzon State University (CLSU)**
Bachelor of Science in Information Technology

2024–2026 — **STI College San Jose**
TVL — Mobile App and Web Development

2019–2024 — **Porais National High School**
Junior High School

CORE STRENGTHS

Full-stack development from interface to deployment • Database-driven features and authentication • Responsive, user-focused interfaces • Independent project ownership • Clear, client-oriented communication
